BR.

Copy of letter No.A.3-P.R.59/39-40 dated 1st November 1939, from the Assistant Commissioner, Dodballapur Sub Division, Bangalore, to the Deputy Commissioner, Bangalore District.

In obedience to your memo No.C.2(a)1011/38-39 dated 3rd October 1939 forwarding a copy of the Revenue Commissioner's D.O. letter No.C.1996 dated 3rd October 1939 directing me to take detail charge of the Y.M.C.A. Rural Reconstruction Centre at Dodballapur and send a report for submission to Government, I have the honour to state that I went to the Centre on the 10th of this month along with the Amildar, Dodballapur, and took charge of the building, live stock and other articles which Mr. T.Stephen, Secretary of the Centre, handed over. The exhaustive list is herewith enclosed for kind perusal. Besides this list, I also got another list prepared showing information under the following heads:- (1) Several items (2) Initial expenditure, (3) Amount actually spent by the Centre, (4) Articles purchased, (5) Savings or excess.

The Government incurred an initial capital expenditure of Rs.10,450/- when the Centre was first started, on the condition that the equipment and other assets shown under this head (capital expenditure) would remain the property of Government. It is seen from the accounts maintained at the Centre, that the Y.M.C.A. authorities have on the whole spent Rs.10,420-7-3 on this account. It is also seen that no distinction was made between capital and recurring expenditure. The whole grant given by Government towards capital expenditure was treated as one, and savings under one head had been spent on excess expenditure on other heads. Consequently, there were excesses under some heads and savings under other heads, and the expenditure was not limited to the Budget Grants under each item. Mr. Stephen, Secretary of the Centre explains this as follows. That at the very inception of the Centre, he and Mr. D.F. Mc Clelland both saw the then Development Secretary and explained to him that as the allotments under certain heads sanctioned by the Government were quite insufficient, they may be permitted to utilise the savings under other heads such as office equipment etc., towards the heads under which the Government grants were found to be insufficient, and that they were told by the Development Secretary that so long the Y.M.C.A.

authorities did not exceed the Budget allotment of Rs.10,425/-, the Government would take no objection to their re-allocating expenditure under the various sub heads.

Under the heads (1) Bore-well and Pump, (2) Fencing Compound (3) Repairs and (4) Electric wiring, the Government sanctioned an initial expenditure of Rs.1,850/-, 1,000/-, 3,000/- and 500/- respectively. Amounts actually spent by the Centre, are, (as per accounts maintained in the Centre) Rs.1144-3-1, 988-0-0, 2252-1-3 and 521-10-0 respectively. These amounts could not be checked with reference to bills and vouchers as the Secretary Mr. T. Stephen said that most of the vouchers had been held up at the Calcutta Head Office. It would seem that the buildings were got repaired without proper estimates, and there was no data whatsoever to check the work in this respect. Further, that although provision was made under non-recurring grant for a bore-well, no bore-well had been constructed, but an old well that was existing in the compound was deepened and fitted with an electric pump. Besides this well there is another earthen well in the compound fitted with an electric pump. But this is not working now as the sides of the well have collapsed. The Secretary says that attempts were not made to get it repaired, for want of funds.

Coming to the live stock, I beg to state that besides the live stock that was actually handed over to the Charge of Government, there were other stocks of cocks, fowls, rams and peacock. These could not be taken to the charge of Government, as the Secretary said that these had already been disposed of prior to 1st October 1939 (on which date the Government took charge of the Centre) but still remained at the Centre as the purchasers of the same had not yet turned up to take them over.

Further, I wish to bring to your kind notice that the Secretary, Mr. T. Stephen, was in possession of raw materials worth about Rs.500/-. This was not handed over to my charge, the Secretary stating that he had been directed by the Y.M.C.A. authorities to sell these materials and make up their deficit budget. He also said that in this connection both he and

Mr. D.F. Mc Clelland had interviewed the Revenue Commissioner in Mysore and explained to him the situation, and that the Revenue Commissioner was pleased to order that the raw materials need not be handed over to the charge of Government.

As regards the condition of the buildings, the main ~~xxxx~~ bungalow with extension (housing the industrial classes) are in a fair state of repair and this applies also the museum building, but some of the separate small blocks behind the main buildings are very dilapidated and one of these is actually in ruins.

C. Subramanya Iyer, Esq., B.A., B.L.,
Secretary to the Government of His
Highness the Maharaja of Mysore,
Law Department, Bangalore.

Sir,

With reference to paragraph 6 of Government Order No.L.4107-22/V.P. 31-39-7 dated 28th October 1939 directing me to hold very early a meeting of the Managing Committee of the Dodballapur Centre and settle the area of operations to be included in the Centre etc., I have the honour to state that a meeting of the Managing Committee was held at Dodballapur on 17th November 1939 and I enclose herewith a copy of the proceedings of the said meeting for the information of Government. It was generally agreed that the operations of the Centre may be extended to about 30 villages to begin with serving a population of not less than 10,000 and situated within a radius of 5 to 6 miles from the Centre. A copy of the Map showing the villages coming within a radius of 5 miles from Dodballapur is also sent herewith for the perusal of Government. The actual number of villages to be included in the activities of the Centre and definite details about the programme of improvements to be undertaken etc., will be settled at the next meeting which is fixed for the 22nd of this month, to enable the Second Member to attend.

I have the honour to be,
Sir,
Your most obedient servant,

Revenue Commissioner.

BR.

Minutes of the First Meeting of the Committee of Management of the Mysore Government Rural Welfare Centre at Dodballapur held at 9 A.M. on Friday the 17th November 1939.

Present:-

1. Rukn-Ul-Mulk S. Abdul Wajid, Esq., Revenue Commissioner in Mysore. Chairman.
2. M.S. Ramachandra Rao, Esq., Director of Industries and Commerce.
3. M. Abdul Huq, Esq., Registrar of Co-operative Societies.
4. C. Abdul Jabbar, Esq., Chief Conservator of Forests.
5. H.M. Govinda Rao, Esq., Superintendent of Sericulture.
6. K.S. Hutcha Rao, Esq., Sanitary Engineer.
7. A. Gundu Rao, Esq., Sub Division Officer, Dodballapur Sub Division, Secretary.
8. F. Stephen, Esq., Manager, Government Rural Welfare Centre Dodballapur, Visitor.
9. P. Narayanaswamy, Esq., Amildar, Dodballapur - Visitor.

Item No.1 Government Order regarding the Centre.

The Chairman commenced the meeting by welcoming the members and reading out the Government Order No.L.4107-22/V.P. 31-39-7 dated 22nd October 1939 pertaining to the taking over of the management of the Dodballapur Y.M.C.A. Rural Development Centre. The Director of Industries and Commerce asked about the grant available for the work of this Centre. The Chairman replied that a sum of over Rs.3,000/- per annum would be required to meet the establishment charges of the centre and that the Committee should decide how this expenditure was to be met. The Director of Industries and Commerce said that, as in Closepet, the Departments may have to meet from out of their Budget the funds necessary for development work. The Chairman thereupon said that the expenses of the Centre may have to be met out of Rural Reconstruction Grants. The Director of Health suggested that when fixing the area of operations, care should be taken to select only such villages as would form a compact area. The Director of Health also pointed out that such a selection would not only minimise travel and ensure thoroughness in work but would also make it easier for villages in one compact area to copy each other's improvements rather than in a scattered area.

The Director of Health suggested the selection of 25 villages and their formation into 3 or 4 health-units, whereupon the Chairman pointed out that health work was not the only object of the Centre and that it could not therefore be considered as the only major activity in the programme of work of the Centre.

Resolution No.1:-

That the activities of the Centre be extended to about 30 villages (with a total population of not less than 10000) situated within a radius of 5 to 6 miles from the Centre.

Resolution No.2:-

That a map showing the situation of these villages be immediately prepared and copies thereof sent to all the members of the Committee.

Item No.(iii) Additional Members.

The Director of Health suggested that the District Medical and Sanitary Officer could render useful service by serving as a member of the Committee,. Other members approved of this suggestion.

Resolution No.3:- That the District Medical and Sanitary Officer, Bangalore, be recommended for appointment as an additional member of the Committee of management of the Dodballapur Rural Welfare Centre.

Item No.(iv). Programme of work.

The Director of Industries suggested that it would be profitable if each department made a survey of each of the villages selected with a view to facilitating the drawing up of a really useful programme of work to be followed in the villages.

The Director of Industries observed that the industries, such as soap-making, hair-oil making, vaseline pomade-making and scent-making and weaving started by the Y.W.C.A. at the Centre might now be discontinued. The Secretary of the Committee thereupon drew the attention of the members to the fact that 3 weavers had already been appointed by the Government to serve on the staff of the Centre. The Director

of Industries and Commerce said that these weavers could with advantage be made to work in the villages. The Chairman approved of this suggestion.

The Committee unanimously felt that the holding of Rural Reconstruction Training Classes Constituted a very important and useful activity of the Centre and that efforts should be made to send more and more of village officers to attend these classes.

The Chairman emphasised the importance of village officers attending these classes and said that revenue collection work should not stand in the way of their joining such classes.

It was suggested by some of the members that arrangements should be made to hold Rural Reconstruction Training Classes as far as possible during months most convenient to Village Officers.

The Director of Industries and Commerce drew the attention of the Committee to the new well sunk at the north-western extremity of the compound and said it would make a good source of irrigation for the Centre if arrangements could be made to effect the necessary repairs and bring the well into good working condition. It was directed to take up this work.

The Director of Industries and Commerce spoke about mulberry cultivation and silk-worm rearing that had already been started at the Centre and expressed a desire to start a seri-cultural seed Centre at an early date.

The Director of Health suggested that it would be an excellant demonstration if one of the wells at the Centre could be made a source of protected water-supply.

A discussion then ensued regarding pisciculture in which the Director of Health spoke of the improvement in nutrition that was essential in rural areas and emphasised the necessity and importance of increasing the supply of fish in the villages. The Chairman approved of this suggestion and said that the Centre would do well to make an immediate beginning in pisciculture

The Conservator of Forests informed the Committee in this connection

that he had sent one of his assistants already to Madras for training in pisciculture.

Resolution No.4:-

That surveys be made of all the selected villages by each department and useful programme of work be drawn up in the light of information gathered from such surveys.

Resolution No.5:- That no activities already carried on by Government Departments need be duplicated at this Centre.

Resolution No.6:- That the Centre should carry on such of the activities as do not come under the purview of any of the Departments of the Government and transfer all the rest of its activities to the Departments concerned.

Resolution No.7:- That the minor industries now carried on at the centre be discontinued and greater emphasis be placed on work in the villages.1000

Resolution No.8:- That arrangements be specially made for the benefit of students to demonstrate all industries at the Centre during the period of all Rural Reconstruction Training Classes.

Resolution No.9:- That the eavers now serving on the staff of the Centre be, in future, made to work in the villages.

Resolution No.10:- That the conduct of Rural Reconstruction Training Classes be continued at the Centre for the benefit of village officers and that they might be encouraged to attend them in larger numbers than hitherto.

Resolution No.11:- That while the old well at the eastern end of the mango-grove is utilised for demonstrating the best methods of protecting water-supply the new well at the north-eastern extremity of the compound be repaired and brought into good working order to facilitate irrigation.

Resolution No.12:- That the Secretary be instructed to request the Director of Public Health and the Sanitary Engineer to

inspect the wells in question with a view to do all that is needful to protect the water in the smaller well and to so repair the bigger well as to bring it into working condition for irrigation and piscicultural purposes.

Resolution No.13:- That the Committee approve of the plan of the Director of Industries and Commerce to make this centre a Silk-worm Seed Distribution Centre.

Resolution No.14:- That the Centre concentrates its attention, at the present moment, on pisciculture and that a detailed scheme for the same be prepared and submitted to the Chairman of the Committee for necessary action.

Resolution No.15:- That the Conservator of Forests be requested to depute his trained piscicultural Assistant for work at the Centre as soon as he has completed his training.

Item V Appointment of Assistants.

1000

Resolution No.16:- That arrangements be made to secure for the Centre the whole time services of a Sanitary Inspector, as Vaccinator and two trained Midwives and an application be made in this connection to the President, District Board, Bangalore

Item No.VI the Budget of the Centre.

Resolution No.17:- That the budget of the Centre be considered after the villages to be served by the Centre have been selected and the programme drawn up for the work of the Centre.

Item No.VII. Building-repairs.

Resolution No.18:- That the Secretary be instructed to request the Executive Engineer to inspect the buildings at the Centre and make the necessary arrangements to get them properly repaired.

Item No.VIII. Date of next meeting.

Resolution No.19:- That the next meeting of the

of the Committee be held at the Centre at Dodballapur on Wednesday, the 20th December 1939 at 9 A.M.

Government Order No. L. 9479-99—V. P. 63-36-27, dated 23rd May 1938, directing, among other things that progress reports of work done in the execution of wells should be obtained every month and placed before the District Rural Water Supply Committee and submitted to Government through the Revenue Commissioner.

2. Government Order No. L. 4950-62—V. P. 34-38-14, dated 16th December 1938, prescribing the forms for reporting the monthly progress in the execution of well works in villages.

3. Letter No. C. 2637—38-39, dated 8th November 1939, from the Revenue Commissioner, requesting approval to the revised forms for recording the progress of drinking water wells in villages and recommending that the progress report may be ordered to be submitted quarterly instead of monthly as at present, for reasons stated.

ORDER No. L. 5180-91—V. P. 34-39-32, DATED BANGALORE, THE 30TH NOVEMBER 1939.

The Revenue Commissioner states that the forms—particularly Statement No. II, prescribed in the Government Order of 16th December 1938 read above—are complicated, that the very many details contained therein are not necessary and that it is desirable to make the forms simpler and has forwarded two revised statements for the approval of Government. He further states that experience has shown that practically no progress could be achieved during a short period of one month especially in the Malnad parts and during the rainy season. He, therefore, suggests that the progress reports may be submitted to Government quarterly instead of monthly, the progress being, however reviewed by the Deputy Commissioners every month.

2. Government are pleased to approve of the revised forms suggested by the Revenue Commissioner, with the modification that two columns be added in Statement II, *viz.*, "Amount of Contribution credited to the Fund during the quarter" and "Total amount of Contribution credited to the Fund up to the end of the quarter from the beginning of the year."

3. Government further direct, in modification of the orders read above, that the progress reports be submitted to them every quarter instead of every month.

Item no.1. Confirmation of Minutes.

As copies of the proceedings of the previous meeting of the Committee were already distributed to the members, the minutes of the meeting held at Dodballapur on 17-11-1939 were taken as read.

Resolution no.1.

That the minutes of the meeting held at Dodballapur on 17-11-1939 confirmed.

P.T.O

Item no 2
Item no 1. Matters arising out of the minutes.

The Chairman remarked that pisciculture was a promising industry and that it ought to be encouraged. He also suggested that some improved fish may be introduced into the reservoir at Marconhalli in Kunigal Tk other Other members approved of this suggestion.

The Secretary informed the committee that the manager of the centre was recently sent to Madras to purchase improved fish and three different varities of them were now in the fish ponds at the centre.

The Chairman enquired when exactly the services of the pisciculture Assistant of the Forest Department would be available for the work of the Centre at Doddaballapur; The Conservator of Forests replied that the assistant was still at Madras undergoing training in pisciculture and that he would be available for the centre five months later when he said he would complete his training .

The Secretary reported to the Committee that in accordance with resolution no.14 passed at the last meeting of the Committee, the cooperative Department, the Educational Department and the Departments of Agriculture, Industries & Sericulture had already prepared brief surveys of the 46 villages situated within the proposed area of operations of the Dodballapur Rural Welfare Centre.

1000

A map showing the area of operations of the Dodballapur Rural Welfare Centre and list of 46 villages situated within a radius of 5 miles were then placed before the Committee for consideration. In the course of the discussion that followed, it was pointed out that no villages were selected in the Devanahalli Taluk and Bangalore Taluks although portions of them came within a radius of 5 miles from Centre.

Resolution no.2.

That the Village Surveys received from the Director Of Agriculture Director of Industries & Commerce, the Superintendent of Sericulture The Registrar of Cooperative Societies and the District Educational Officer be accepted and recorded.

Resolution no. 3 .

That the following villages be included in the area of operations of the Dodballapur Rural Welfare Centre:-

1. Rajaghatta
2. Konaghatta
3. Sonnappanahalli
4. Adinarainahosahalli

45. Thimmasandra	46. Thogarighatta.	

Item no.3. Programme of Educational Work.

After some discussion regarding the merits and demerits of Laubach's and Devadu's Methods in connection with adult literacy work the committee felt that work in this field was bound to be more a failure than a success in the villages, judging from experience already gained from parts of the country where these methods had beed tried.

As regards Educational Work through the medium of dramas, the Committee felt that before taking a decision in the matter it would be advisible to call far a report from the Closepet Centre where some attempts are reported to have been made in this direction.

Resolution no.IV.

That a report be called for from the Educational Department on the experience gained in Adult Literacy Work already done in the State and that the inclusion of this item of work in the programme of the Doddaballapur Centre be deferred till then.

Resoltion no. V.

That before including "dramas" as an item of work in the educational programme of the Doddaballapur Centre a report be called for from the Clospet Centre on the attempts already made there in this direction.

Resolution no.VI.

That the following items of work constitute for the present the educational programme of the Doddaballapur Centre:-

1. Collection of educational statistics.
2. Medical inspection of all schools.
3. Teaching of personal hygiene.
4. Introduction and improvement of school -gardens.
5. Maintenance of a village circulating library.

Item no. VII. Agricultural Programme.

Resolution no. 7.

That the following activities suggested by the Director of
